**Adult Substance Abuse
Crisis Services (ASCS)**

Client Eligibility Criteria	<p>Adults, ages 18 and over, who: are seeking or needing services for a current Substance Abuse problem or symptom,</p> <p>AND</p> <p><u>who is not eligible for Medicaid,</u></p> <p>AND</p> <p>who have completed a current Screening/Triage/Referral Interview and have received an "Emergent" triage determination, as defined below*, <u>or</u> are currently enrolled in an eligible Adult Substance Abuse Target Population and are in need of crisis or emergency services beyond the capacity of the designated First Responder provider,</p> <p><i>Note: An individual who is eligible for Medicaid is <u>not</u> eligible for the Crisis Services target population, nor is an individual who is eligible for both Medicaid and IPRS services. The Crisis Services target population is limited to only those individuals who either:</i></p> <p><i>a) have <u>no IPRS target population eligibility</u>, or</i></p> <p><i>b) have <u>only IPRS target population eligibility, but not Medicaid eligibility.</u></i></p> <p>The purpose of the Crisis Services Target Population is to provide a mechanism to reimburse a provider for crisis or emergency services that have been provided to a non-Medicaid Adult Substance Abuse consumer. The consumer may or may not meet eligibility requirements for any other IPRS Target Population, but may <u>not</u> be eligible for Medicaid.</p> <p>Eligibility for the Crisis Services target population requires LME admission of consumer into the CDW through completion of the Identifying Information (Record 10 or 30), Demographics (Record 11 or 31), and Substance Abuse (Drug of Choice) Details (Record 17 or 37).</p> <p>The LME may establish the initial eligibility period in the Crisis Services (ASCS) population group for up to fourteen (14) days. After the initial eligibility period, the consumer must be reassessed and determined to continue to be in need of crisis and emergency services to be considered for another fourteen (14) day eligibility period.</p> <p><i>* STR Definition of "Emergent": An individual's need shall be categorized as "Emergent" when the individual presents a moderate or severe risk related to safety or supervision, or is at moderate or severe risk of substance abuse withdrawal symptoms, or presents a mild, moderate, or severe risk of harm to self or others, or has severe incapacitation in one or more area(s) of physical, cognitive, or behavioral functioning related to mental health, developmental disabilities or substance abuse problems.</i></p>

Service Array	<p>Refer to <u><i>IPRS Service Array</i></u> on the IPRS website. (http://www.dhhs.state.nc.us/mhddsas/iprsmenu/index.htm)</p>
Provider Restrictions	<p>Billing Provider – LME</p> <p>Attending Provider – Multi-Service w/SA Provider or Enrolled SA Provider</p>
Funding Source(s)	<p>Adult SA State Crisis – 536949003 1490 222 00</p> <p>For full details, refer to <u><i>IPRS Budget Criteria</i></u> on the IPRS website. (http://www.dhhs.state.nc.us/mhddsas/iprsmenu/index.htm)</p>
Utilization Management	<p>ASAM Adult Patient Placement Criteria apply to all substance abuse services and levels of care.</p> <p>Each Local Management Entity is responsible for the development and implementation of crisis and emergency services delivery and authorization guidelines to ensure the prompt and efficient implementation of services to eligible “Crisis Services (CS)” consumers. This includes LME approved procedures for the authorization of 24 hour admissions to inpatient hospital, facility based crisis, and 24 hour detoxification programs. The Division recommends that the LME review and authorize Mobile Crisis services after the delivery of the initial 16 units (4 hours) of this service.</p> <p>During regular hours of operation, the Division recommends immediate notification of the LME by the crisis or emergency services provider for all 24 hour emergency admissions. Written notification regarding such emergency admissions is recommended to be provided to the LME within 24 hours in all circumstances.</p>

**Adult Substance Abuse
DSS Involved (ASDSS)**

Client Eligibility Criteria	<p>DSS Involved adults who are ages 18 and over, who are in need of treatment for a primary alcohol or drug abuse disorder, and are substance abusers who meet ICD-9 criteria for substance-related disorder include those who:</p> <p>(1) Are parents who have legal custody of a child or children under 18 years of age; AND (2) where there is a Child Protective Services report for child abuse, neglect, or dependence that is being assessed, or where there is a finding of a need for Child Protective Services or a case decision of substantiation by Child Protective Services, OR who are authorized by DSS to receive Work First Assistance and/or services OR (1) Are DSS involved individuals who have been convicted of a Class H or I Controlled Substance Felony in North Carolina, and who are applicants for or a recipient of Food Stamps.</p> <p>Re-assessment is required at least annually</p> <p>~~~~~</p> <p>NOTES: All individuals will be assessed for service eligibility on the basis of the American Society of Addiction Medicine (ASAM) <i>Patient Placement Criteria for the Treatment of Substance-Related Disorders (PPC)</i> (Adult Criteria) incorporated by reference to include subsequent amendments and editions. Substance-Related Disorders and Other Conditions That May Be A Focus of Clinical Attention will be classified according to the <i>International Classification of Diseases 9th Revision (ICD-9)</i> incorporated by reference to include subsequent amendments and editions.</p> <p>The client's service record shall include the required substance abuse Treatment Episode Data Set (TEDS) admission and discharge data elements that are reported to the Division. These elements include, but are not limited to, the identification of the primary, secondary, and tertiary substance problems, frequency of use, usual route of administration, age of first use, and pregnancy status at time of admission.</p> <p>Intent is to insure that SA treatment services are paid for by this population group.</p>
ICD-9 Diagnosis Ranges	<p>291-29299 303-30599</p> <p>All clients are required to have a primary diagnosis of an alcohol or drug abuse disorder in addition to any diagnosed nicotine-related disorder or caffeine-related disorder.</p> <p>~~~~~</p> <p>For the most current list of specific diagnoses, refer to <u><i>IPRS Diagnosis / Target Population Crosswalk</i></u> on the IPRS website. Utilization Management	<p>ASAM Adult Patient Placement Criteria apply to all substance abuse services and levels of care.</p>

**Adult Substance Abuse
Treatment Engagement and Recovery (ASTER)**

<p>Client Eligibility Criteria</p>	<p>Adults who are ages 18 and over with a primary alcohol or drug abuse disorder and who require substance abuse assessment and treatment initiation, engagement and/or continuity of treatment services and supports for relapse prevention and recovery stability. This target population is intended to assure eligibility for substance abuse treatment services for an adult consumer who is not already eligible for services through Medicaid or a current Mental Health, Developmental Disabilities, or Substance Abuse target population.</p> <p>The purpose of the Treatment Engagement and Recovery target population is to promote broadened eligibility for primary substance abuse assessment treatment services for which a provider may be reimbursed. These services should be immediately available to a consumer, and are generally limited in both duration and intensity. It is a goal that this target population eligibility will enhance LME efforts to develop a provider system that supports an accessible and responsive service array for primary substance abuse consumers. Substance abuse assessment and treatment services and supports are required to be provided per Division standards by licensed, certified, and qualified substance abuse professionals, associate professionals, and paraprofessionals.</p> <p>The LME may establish the consumer's initial eligibility period in the Treatment Engagement and Recovery target population for up to two (2) eligibility periods of up to ninety (90) days each in a fiscal year. After the initial eligibility period, the consumer must be reassessed and, if determined to continue to be in need of substance abuse treatment services, may be approved for one (1) additional ninety (90) day eligibility period within a fiscal year. At the end of the second eligibility period within a fiscal year, the consumer must be enrolled in another target population to continue to be eligible for services. At the beginning of each fiscal year, the consumer is eligible to be enrolled in the target population for up to two (2) eligibility periods of up to ninety (90) days each.</p> <p>If a consumer in treatment becomes eligible for another MH, DD, or SA target population, they are required to be immediately enrolled in that target population, and the consumer is likely to be eligible for a larger array of services and funding sources, and an expanded eligibility period.</p> <p>This target population <u>excludes</u> any consumer whose need for services is related to an arrest for Driving While Impaired (DWI), Commercial DWI, or driving while less than 21 years old after consuming alcohol or drugs. This consumer should be enrolled in the ASDWI target population. .</p> <p>~~~~~</p> <p>NOTES:</p> <p>All individuals will be assessed for service eligibility on the basis of the American Society of Addiction Medicine (ASAM) <i>Patient Placement Criteria for the Treatment of Substance-Related Disorders (PPC)</i> (Adult Criteria) incorporated by reference to include subsequent amendments and editions. Substance-Related Disorders and Other Conditions That May Be A Focus of Clinical Attention will be classified according to the <i>International Classification of Diseases 9th Revision (ICD-9)</i> incorporated by reference to include subsequent amendments and editions.</p> <p>The consumer's service record shall include the required substance abuse Treatment Episode Data Set (TEDS) admission and discharge data elements that are reported to the Division for the Consumer Data Warehouse (CDW). These elements include, but are not limited to, the identification of the primary, secondary, and tertiary substance problems, frequency of use, usual route of administration, age of first use, and pregnancy status at time of admission. The consumer's outcomes are required to be tracked through the data submitted through the provider's participation in the North Carolina Treatment Outcomes and Program Performance System (NC-TOPPS).</p>
